There's nothing more refreshing than a good burger and an ice cold drink after a hard day's work. If you have a lot of people to serve, you can refresh your customers with the 650 from Custom. Perfect for events, fairs and even city streets, the 650 is a fully enclosed street cart with sliding Plexi-Glass (or stainless steel) service windows. On the inside, the 650 has room for steamtables, char-broilers or grills. The vented fiberglass roof has a battery powered vent fan which helps keep you cool and the food hot. On the outside, customers can choose their own beverages from the self-serve ice compartment under the serving window. Optionally, we can install a candy/cookies/pastry display to make your packaged products even more enticing. Choose from steel or white aluminum covering to make your cart stand out from the crowd.

### FEATURES

- 650 over-all dimensions: 96" L x 48" W x 96" H (Dimensions do not include hitch or ice well extension)
